Tactical Changes & How to score

Presented by: Sophie Allison

Tactical Changes – Refresher

Both teams may make tactical changes immediately after a goal has been scored following a request from an on-court player to hold time for this purpose, ensuring that:

a. The umpire is clear the request is for a tactical change and not for injury/illness of a player or blood.

b. Any on-court players leave the court or change playing positions without delay.

c. Any substitutes take up their position on court without delay.

d. All team officials including primary care persons remain at the team bench.

e. The umpire is able to restart play quickly so the momentum of the match is not affected

Tactical Changes – Refresher

If undue time is taken by either team to complete substitutions and/or team changes, the infringing team will be penalised for delaying play [World Netball Rule 19.1] and [Rule 19.2]. For a tactical change, this will be immediately following the whistle for the next centre pass.

Tactical Changes – Scoring

Score Process:

1. Record centre pass

2. Record a ● for any missed shots for goalers for either team

3. Record a | for any goals scored

4. This should then be followed by marking off the progressive score

5. Then record the next centre pass.
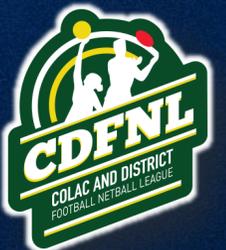

If a *goaler* is involved in a change, the <u>FIRST</u> thing should be to notate this in the tally strokes section. Then, you can notate the change on the position tracking sheet.

This will ensure goal statistics are attributed to the correct goaler.

You can then proceed to record <u>all changes</u> on the 'Position tracking form'.

It is important this is completed correctly, to support umpires in assigning best and fairest votes.
